

Long Island Federation of Labor/NYCOSH PRESENTS

Indoor Environmental Quality Training

“While most individuals understand that outdoor air quality is important to their health status, many are unaware of the detrimental effects indoor air pollution can have. The Environmental Protection Agency (EPA) regulates both outdoor and indoor air quality. According to the EPA, indoor levels of pollutants may be up to 100 times higher than outdoor pollutant levels and have been ranked among the top 5 environmental risks to the public.” - Joseph Seguel, *American Journal of Lifestyle Medicine*.

What the training will include:

- Indoor environment basics
- Construction/renovation related hazards
- Asbestos
- Mold
- Legionaries' disease
- Indoor air quality testing
- Role of OSHA/PESH

Save the date!

Date: September 17th

Time: 5:30 pm (Snacks will be served at 5:00 pm)

Place: NYSUT Nassau Regional Office

1000 Woodbury Rd. Suite 214, Woodbury, NY 11797
